15th Signal Brigade

Advanced Immersion Program

Mission

The 369th and 447th Signal Battalions (-) deploys newly arriving soldiers for continuous operations IOT fully train signal Soldiers on MOS and Warrior Tasks and Battle Drills (WTBD). O/O Companies from each Signal Battalion (-) will occupy Forward Operating Base (FOB) Warrior and conducts large scale training operations for both the MOS-I and MOS-T soldiers. Training will be conducted within a realistic scenario that places the Soldiers in a simulated deployment situation.

Advanced Immersion

The Advanced Immersion program was established in January of 2006. Its purpose is to carry Weapons Immersion to the next level. During the first two weeks of arriving to FT. Gordon, MOS-I and MOS-T Soldiers will deploy to FOB Warrior with weapons for an eight day field training exercise. During this exercise, Soldiers are placed in a realistic tactical environment while conduct training in the following areas: Signal Common Core, Warrior Ethos, and FOB Operations. The following MOSs will participate in Advanced Immersion:

- **25B**
- **25C**
- **25D**
- **25L**
- **25P**
- **25S**
- **25U**

Concept of Operation

The company in training will establish FOB Warrior to support ADVANCED IMMERSION (AI). The first Monday and Tuesday after new Soldiers arrive will be for inproccessing of new soldiers. AI will consist of an exercise that will start and end on a Wednesday lasting 8 days. The eight days of training will consist of both academic and tactical training during 24 hour operations. Upon the completion of the exercise, the Soldiers will conduct a tactical redeployment and conduct recovery operations in the respective companies.

Concept of Operation

SUN	MON	TUES	WED	THUR	FR
	DAY1	DAY2	DAY3	DAY4	DAY
	INPROC	INPROC	Deployment	ACADEM	ACAD
			FOB Orientation	WET	WE
			MOD A	MOD B
